Daring Rescue and a Fatality at River Park Yesterday

A daring rescue and a tragically feature of an exciting adventure at River Park yesterday. J. Levin, a Polish Jew, was the victim and the heroic life-saver was Harold Cottingham. Levin hired a boat at Knight's boat house and half an hour afterwards it upset with Levin and Leinsberger. Cottingham, caretaker of the boat house, rescued Leinsberger, but Levin went to his death. A search was made but the body has not been recovered.

LONDON TIMES ROASTS DEEF TRUST

London, June 3.—The British press is devoting much space to American meat packers. The Times says "Horrible as are the details from a sanitary point of view, the grinning tyranny by which men, women and children are forced to the lowest depths of degradation and depravity by the bosses of the beef trust is more awful still. Conditions of work in these establishments are so deplorable that they might be mitigated by humane treatment. On the contrary they are aggravated by a brutal system carried out by brutal agents—a system by which in a land supposed to be free and democratic a plutocrat grinds the soul of men and women as ruthlessly as his machine handle tuberculous cattle, cholera-stricken hogs and putrid hams."

CLAIMS TO HAIL FROM EDMONTON

Bogus Cheque Operator Gets Twelve Months in the Cells at Vancouver

Vancouver, June 4.—Gordon Middleton, alias L. Harrison, who claimed to hail from Edmonton, was given twelve months at hard labor by Magistrate Williams this morning for obtaining money under false pretences. Middleton used the bogus cheque method. B. S. Parsons of the Metropole hotel, laid information. Gordon Middleton or Harrison came to Vancouver a week ago and claims that he deposited \$100 in the savings department of the bank of Commerce. The ledger clerk of the bank denied this. The accused stayed at the Metropole and paid his bill with a \$25 cheque which proved worthless. He also gave a cheque on the Bank of Montreal for a large sum and this was said to have been cashed by a woman from Dupont street.

ALSO WANTED IN EDMONTON

Missing Edmonton Book-keeper
Rounded Up in Vancouver

A Vancouver despatch published in a local column announced that a man named Middleton claiming to hail from Edmonton has been gathered in by the authorities for passing bogus cheques. The local police believe the gentleman's claim to have formerly been in Edmonton is correct and that he is Geo. Middleton, formerly book-keeper at the Melness & Lyons Lumber Co. Middleton disappeared about May 20, and about \$150 of the company's money disappeared at the same time. When the Vancouver authorities are through with him Middleton will probably be brought back to Edmonton to answer for the missing money.

LOOKS LIKE HOLDUP MAN

The police have a man in charge who looks like one of the hold-up men, and who so far has not given a satisfactory account of himself. He was captured at 5 o'clock this morning near Rat Creek by Officer McPherson, who was making a round-up in that vicinity and being attracted by the man's suspicious movements, and decided to gather him in. When captured he had a bicycle which was later identified as having been stolen from W. A. Leonard's residence, Boy's street, on Friday afternoon. The man tallies very well with the description of the tall man who held up Alex Satter on Rat Creek and the man who has been seen in company with him, and for whom the police are now looking, answers the description of the short man. The man arrested gives his name as Arthur Nix. He is held at present on the charge of having stolen the bicycle and the hold-up business is being investigated in the meantime.

WANT FIRST STREET WIDER

Property Owners Hold Meeting and Decide to Petition for Broad Thoroughfare

Property-owners on First street have revived a proposition which has come up annually for three years past, to add 20 feet to the width of First street and make it a wide thoroughfare, the same width as Jasper.

When the proposition came up in previous years property owners along the street were somewhat lukewarm toward the scheme and nothing came of it. This year, however, there is a much different feeling in the matter. Holders of real estate along First have come to recognize that their property faces on what is due to become of the main thoroughfare of the city, if not the principal street. They look forward with confidence to the day, in the near future, when there will be a double track street car line on First and expect that the location of the union depot at the C.N.R. station, if realized, will make it an intensely busy street. As a matter of business facility, the property owners believe, the broad thoroughfare is necessary and as a matter of fire protection it is considered a paying proposition. It is pointed out, for instance, that had Jasper been no wider than First on the night of the Robertson Hall fire it would have been impossible to save the Jagger House, and with it would have gone Fraser's and Chisham's yards and all the north and east end of the city. In order to get an expression of opinion from property holders along First, a meeting was held this morning in the front office of the Western Printing Co's establishment on First street. Nearly all the property on both sides of the street was represented, and with one or two exceptions the opinion of those present was unanimously in favor of the broad thoroughfare.

Archibald York, of the Edmonton Real Estate Co., was called to the chair and brought the meeting to order. He pointed out the advantages of a broad street and said that while he was not personally interested in any property south of the track, which was the section they were considering at the present time, he felt that it was a matter that would benefit not only those in that particular section but those further out, and in fact the whole city. The piece on the other side of the track would cause no great difficulty, when that south was fixed up. It was quite a big proposition to handle, but they had an opportunity now to make First a broad, straight thoroughfare which would very soon be one of the finest streets in Canada. The proposition which had been talked of was to take 20 feet off the lots on the west side of First, making the street 190 feet wide, and charge one half the cost up against the property on the east side of the street. In order to know just what the sentiment of the individual property owners was, he called for an expression of opinion.

Mr. Bookholder, who owns lots 154 and 155, next to the Jasper lane, was the first to speak. He said that the street was what they wanted and he would give up 20 feet off the front of his lots if the other property owners would do the same. All he asked as a reimbursement was that the east side people should rebuild the sidewalk and re-grade the street. Mr. John Summerville, who owns the next lot, was not present, but it was reported that he was favorable to the broad street. John Calhoun, of Ferguson & Calhoun, who owns five lots, had nothing to say to what Mr. Bookholder's last speaker had said, except that the

Anarchist Who Threw Bomb Arrested But Shot Sergeant of Police on Way to the Cells and Then Shot Himself

Madrid, June 4.—Matto Moral or Morale, the anarchist who threw the bomb at the King and Queen, killing and wounding members of the guard and spectators, was captured late Saturday in a village near Madrid, where he had taken refuge. As he was being taken to the police station he suddenly drew a revolver and before he could be disarmed killed himself. There are many conflicting stories as to what happened, but one of general credit is that Moral called at an inn dressed as a workman and asked for food. The landlord was suspicious and asked him in and after setting foot before him hurried to inform the police. A sergeant and several members of the rural corps came and, after deciding that the description of the man tallied with the suspect, and that his squallidly mottled hands and appearance of poverty did not tally with him working clothes, they decided to arrest him. When asked who he was he said he was a workman searching for work. They told him to accompany them to the station. He walked about twenty paces and then pulled a revolver. As he did so the sergeant of the guard, fearing he would escape, shot at him. Moral was not hit and he turned and fired, killing the sergeant. A number of people rushed to the scene and Moral evidently seeing he could not escape, shot himself and fell dead with a bullet through his heart. Both bodies were brought to Madrid.

WANTS FIRST STREET WIDER

(Continued from Page Three)

should make haste, as they had some building plans, which they wanted to go on with at once.

Mr. Richardson, who owns a half interest in the corner of Rice and First, said he would give up 20 feet and believed his partner would be willing to do the same.

Mr. Webster had no hesitation about offering 20 feet. He suggested a valuating committee and a levy on all property owners on both sides, to buy the land and pay for the improvements. Weeks & Armstrong, owners of the next lot, were not present.

Ald. Picard, and P. S. Myers, were in favor of the scheme.
 Mr. Crafts, who owns five lots between Peace and Mackenzie, is one of the promoters of the proposition, and spoke very favorably of it.

W. H. Clark and S. Nankin were not present.

W. H. Phillips said that he was just completing a building on First which butted up close to the street, but if he had any guarantee that it would be moved back and left in as good repair as it is now with the street rebuilt, he would be heartily in favor of the broad street and would willingly surrender 20 feet.

Mr. Studebaker was the only property owner on the west side who expressed an adverse opinion. He said he had been waiting for a long time for a cement sidewalk, and as they were now building one past his store door, and he had no guarantee that if that were torn up he would be given another one in the immediate future, he was skeptical about the proposition.

Archie Macdonald, who was not present, was reported as favorable.

Miss Sibley, who recently purchased the Hume lots, close to the C. N. R., was reported by Mr. Crafts as being favorably inclined toward widening the street.

The property owners on the east side who were present, unanimously volunteered to contribute their share. These were Mr. Gilmore, Mr. McLeod, Robert Tagler, the Journal and Mr. Mahoney. Others who were not present were:

Mr. York pointed out that it was possible, if a properly signed petition was gotten up to have the matter taken up by the city as a local improvement and the cost taxed against the property.

In order to get the scheme into working shape, Mr. Burkholder moved that Messrs. York, Crystal and Hutton be appointed a committee to draft a petition to the city council and to obtain all the necessary information which to report at a meeting to be held at the same place on Wednesday evening at 7.30.

As Mr. Crystal and Mr. Hutton were both east side owners, the motion was amended, putting Mr. Calhoun's name in place of Mr. Hutton's. Mr. York being a non-owner in this section of the street and therefore being considered the third member.

The committee had no time in getting to work and they are this afternoon consulting with the city solicitor to learn the modus operandi of having the work undertaken as a local improvement. Mr. Crystal, who has great faith in First street and the public spirit of the property owners there, says that he believes that they can get the signature of every property owner on First from Jasper to the station to sign the petition.

CANADA'S CONTRIBUTION

Canadians will be gratified that the conventionalities have been surmounted or avoided and that Canada's contribution to the San Francisco conference has been sent along. When normal conditions have been established in the stricken district even the San Francisco critics of President Roosevelt will be constrained to admit the wisdom of their chief executive in declining an action which might have been construed as indicating the inability of their country to cope with the situation or which might have been considered as putting the United States under obligation to a foreign nation. Canada had no doubt of the ability and willingness of the people of the United States to relieve the sufferers nor any desire to place that country under a financial obligation. Her desire was to express tangibly the sympathy of her people and that expression has been permitted by allowing a non-official organization to accept the contributions which the Government felt obliged to decline.

ANOTHER FIASCO.

Mr. Monk, member for Jacques Cartier, added another to the record of Opposition eccentricities on Wednesday last, when Mr. J. J. of the Canadian Immigration Service in Great Britain, appeared before the Agricultural committee of the House of Commons. Mr. J. had been brought from England at the express request of Mr. Monk to give evidence before the committee regarding the North Atlantic Trading Company. In such cases the member desiring the attendance of a witness is supposed to conduct his examination. But when Mr. J. appeared before the committee Mr. Monk assured the chairman that he had no questions to ask him and when urged to proceed with the examination he requested, persistently refused to do so. The net result of the episode is that an important member of the Immigration Service in Great Britain was taken from that service during the session when his presence was most needed and brought to Canada at the country's expense in order that the member who had requested his presence might refuse to avail himself of the privilege he had demanded. The only conclusion from the incident is that in making the demand the member from Jacques Cartier was governed by a desire to needlessly interrupt the work of the Immigration Department, or that since making the demand he discovered that the evidence of Mr. J. was likely to prove more damaging than helpful to the cause of the Opposition.

THE INQUIRY AND ITS LESSON

The civil inquiry into the charges against the management of the city isolation hospital on Friday evening not only failed to investigate, but failed to determine in what manner the investigation should be held. Under the circumstances it appears quite probable that the matter has gone as far as it will go and that no inquiry will be held either before a judge or before the city council. If the investigation is to be continued the preliminary steps before the council is to determine whether the charges shall be considered as made against the city council or against city employees. If the charges are to be considered as against the council that body can scarcely presume to sit as judge on a case in which it considers itself defendant. If the charges are considered as made against a city official or city officials charged with the protection of public health the council may quite properly claim to be interested party and entitled to investigate charges against its employees.

Whether the investigation be continued or not is of less consequence than that similar investigations are not required in future. Whatever may or may not have been the manner of

conduct of the isolation hospital in the past is of less importance than that its conduct in the future be unquestionably proper. The real lesson of the inquiry is that such inquiries should not be found necessary. And whether the fault, if such there has been, were due to the negligence of city officials or of the city council it is to the latter body that the ratepayers look for the prevention of similar conditions in the future. In this the aldermen have done well. Let them not weary in well doing and they may rest assured of the overwhelming approval of the citizens in their efforts to lessen the miseries of the unfortunate and to safeguard the public health.

ROUNDING UP HORSE THIEVES

Calgary, June 2.—The facts of the horse lifting case, recently reported, have now come to light, and they disclose a story that might be duplicated in romantic fiction, but nowhere else, save perhaps in the annals of the Force, whose bloodhound instincts and indomitable determination proved their latest exploit.

On May 5 information was received concerning a bunch of about 25 horses that were going north across the Saskatchewan near Bow Island, between Medicine Hat and Lethbridge, and by McGregor's ranch. The two men in charge of the bunch were reported as meriting suspicion. The Mounted Police at once took the matter up. The information was, two days old, but in four or five days they had something tangible to work upon. One of the horses bore Donaldson's Quarry Lake brand. Donaldson was seen, and to enquiries made, said he had not sold. The suspects were then followed up, and on the 15th the patrol from Port Saskatchewan district ran across the quarry about forty miles from Stettler. Much against their inclination they were taken to Stettler where the horses were corralled and the man detained pending information from headquarters.

The two men, Perry alias Jerry, and Hayden, had their horses put in a stable along with those of the police, the livery man being enjoined not to release them without police authority. In the temporary absence of the liveryman, who went out for a drink—and while the police were at the telephone office, Perry and Hayden got into the stable, led out their horses and were about to mount when the liveryman showed up.

"Where are you going?" he shouted. "On, we are just going to look around a bit."

"The devil you are! Not on those horses. I have my orders. Take those horses back to the stable!"

The men appeared cowed and wheeled back into the stable, but emerged a second later, still mounted, covered the liveryman with their revolvers, and galloped off to the south. Some valuable time was lost, but as soon as possible under the circumstances the patrol wired headquarters. From there the position was flashed to all detachments, and the chase began. It lasted 15 days and was conducted during wet, slushy weather, in a wild, almost unsettled country. What hardships the men endured few will be able to realize. Short of food and sleep, soaked to the skin, without shelter, creeks and rivers made hard to cross by heavy rains, they kept grimly on until the 29th May, when Perry and Hayden were caught somewhere between Battleford and Swift Current. An estimate of the distance covered during the chase would put it at about 350 miles.

C. N. R.'S EASTERN LINE

In connection with the execution of their plans for the construction of their new transcontinental railway system, Messrs. Mackenzie & Mann have presented to the minister of railways at Ottawa, for approval a route map of a 500-mile stretch to the north of Lake Superior. The route they have chosen from Sudbury westwards to the Canadian Pacific main line, keeping at an average distance of about twenty miles all the way. It will connect at a point called Kaabowis with the Canadian Northern's existing line just west of Port Arthur. The construction of this link around the north of Lake Superior would give Messrs. Mackenzie & Mann a through line from Toronto to Edmonton. Plans are already before the government of the line that this same company intend building through Ottawa to connect with Montreal and Quebec. This plan presented shows that they intend to construct a branch from Sudbury to Hatchawana Bay, on Lake Superior. Their main line north of Lake Superior will keep to the north of the height of land which at that point comes pretty close to the lake.

FORTY KILLED IN ARIZONA RIOT

Blaine, Arizona, June 2.—Forty people have been killed in riots here and the Canadian Consolidated Coal's building has been fired by rioters. The company has asked Washington for troops. Superintendent of the Metall of the company has been killed and a terrible carnage has taken place. There has been much race hatred between Mexicans and Americans on the works and the trouble originated in that direction.

For Family Colds

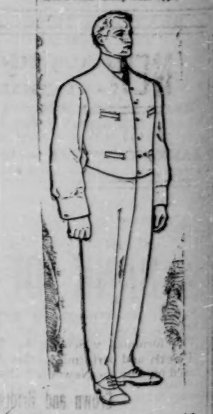

A reliable cough and cold cure should be always in the house ready for use the moment the first symptoms appear. It is always easier, cheaper and better to check a cold in the very beginning.

It is safer, too. Shiloh's Consumption Cure, the Lung Tonic, has been tested for thirty-three years, and tens of thousands of homes in Canada and the United States to-day never without it.

A dealer writes: "Shiloh's Consumption Cure is without doubt the best remedy for Coughs and Colds on the market. One used, my children will buy no other."—L. E. Eddy, Nanaimo, B.C. If it were anything but the best, would this be so? Try it in your own family. If it does not cure, you get back all your money. We take all the chances. Whether you use your dealer can lose. Let's do it! 25c is the price. All dealers in medicine sell.

SEMI-READY TAILORING

MR. MONK DECLINES TO QUESTION MR. JURY.

Ottawa, May 30.—When the agriculture committee met today there was a long squabble over a motion and two amendments made at the last meeting. Mr. Monk moved that the evidence of Mr. Preston be reported to the house forthwith, so that the house could decide whether he was to answer the question put to him concerning those who composed the North Atlantic Trading Co.

Mr. Carvell moved an amendment to the effect that when the house decided the matter, the question would be considered closed.

Mr. MacDonald moved an amendment to the effect that the whole matter stand over until such time as the evidence of Mr. Preston had been taken. This was the position when the committee met today. After some discussion the chairman decided that the amendments were out of order and that it would be desirable to dispose of the main motion. A vote was taken on the main motion, when it was defeated by a vote of 15 to 23.

Mr. Jury was then called when Mr. Monk said he had no questions to ask of Mr. Jury, and he had no more to ask of Mr. Preston. That being the case it was decided that Mr. Preston should be discharged. Mr. Preston was therefore discharged and the motion of Mr. Duncan Ross that Mr. Preston be reported to the house for his refusal to answer certain questions, ready referred to along with the evidence already given by Mr. Preston, was carried.

Mr. Jury was called for, when Mr. Monk said that he had no questions to ask of Mr. Jury; perhaps someone else had.

Mr. Fisher said that Mr. Jury was summoned by Mr. Monk and therefore the committee expected that he would proceed with the examination.

Mr. Monk replied that when he summoned Mr. Jury he expected that he would be able to give information concerning some matters which the other two witnesses refuse to give, but he found that he had none to give.

Mr. Fisher said that Mr. Monk had evidently found out from Mr. Jury privately that he had no information to give regarding the North Atlantic Trading Co., but then the committee might be anxious to know something about immigration from Mr. Jury and how it was being conducted. In Europe, Mr. Monk said that he would not move for Mr. Jury's discharge because it did seem strange to ask a witness to come so far and not ask him anything. He (Monk) had some business before the railway committee and he would like to go there.

Mr. Fisher said that this being so he would move that the committee adjourn. The committee then adjourned.

SUICIDE AT DULUTH.

Duluth, May 31.—C. W. Young, of Sumner, B. C., committed suicide by shooting. It is thought that dependency resulting from business troubles led to the tragedy. He was fifty years of age and for ten years was cashier of the Rat Portage Lumber Company at Kenora. Last February he resigned because of bad health and engaged in the real estate business here. It is said that \$500 would have covered his obligations.

MOOSEJAW-EDMONTON LINE

N. Moosejaw Times: A party of surveyors are operating in the territory northeast of the city, and it is reported that they belong to the C. P. R. survey service and will run a line from where the survey stopped last fall, to a point on the Kirkella branch at or near Saskatoon. Moreover, the Bladworth Progress, published at Bladworth, just south of Hanley, on the Prince Albert line, in its issue of May 24, says:

"C. P. R. surveyors are now running a line from the end of Moosejaw extension to within 12 miles of Hanley. The probability is that it will join the Kirkella branch at Saskatoon."

If the C. P. R. carry out this programme Moosejaw will be well satisfied. But in face of the statement made recently at Saskatoon by a prominent C. P. R. official that the Moosejaw line would not go to Saskatoon, that is much a degree of uncertainty about it that it is time the Board of Trade took steps to secure a definite promise, for this uncertainty cannot fail to have a very injurious effect on the best interests of our city.

By constructing the Moosejaw-Edmonton line via Saskatoon and connecting the Lacombe line with the main line at or near Medicine Hat or Swift Current, Moosejaw's interests will be even better served than by a direct line from Moosejaw to Edmonton, for it will give this city direct connection with three branch lines, namely Lacombe, Wetaskiwin and Saskatoon and Prince Albert, instead of one, and place our city in a much better position as a distributing centre.

The importance of the problem of branch line building to Moosejaw cannot be overestimated, and we again press upon the Board of Trade and City Council the urgent need of quick and Curgent action.

THE RAILWAY RACE

Victoria, B.C., June 4.—Four great railway lines are believed to be heading for the Yellowhead pass in the Rocky Mountains and it is more than likely that the Canadian railway commission will have a difficult task to perform in allotting each its right-of-way through the mountains. The companies concerned will be the G.T.P., C.P.R., C.N.R. and the line under control of J. J. Hill. This latter will be the company known as the Vancouver, Westminster and Yukon, which has a charter in the province of British Columbia to Yellowhead.

C. M. R. DRILLING

A full turnout of C. M. R. recruits is expected for drill tonight at the curling rink. Squad drill without rifles will be given. Those wishing to enrol should do so as soon as possible, in order to become proficient in the drill before camp opens. Camp will commence on the Great state west of the city on June 19, and will break up on the 30th. Col. McDonald, of Winnipeg, will be in charge.

The curling rink is being fitted up with the usual equipments necessary in an armory. Racks for rifles, bayonets, saddles, etc., are being constructed, and a new hardwood floor has been laid in the body of the rink. The drilling previous to camp will be confined to squad and troop drill on foot, with and without rifles.

The foot and mounted drill is precisely the same, the object of this being to make the men as proficient in foot drill as in mounted drill in order that they may be utilized either as infantry or cavalry. Each private is supplied with a uniform, rifle, bayonet, belt, saddle and all the accoutrements necessary. The private supplies his own horse, for which during camp, the department allows him \$1 per day, together with provender.

WETASKIWIN CELEBRATES TUESDAY.

Wetaskiwin Times—As already announced Tuesday of next week is the day upon which Wetaskiwin will celebrate a most important event, namely the receiving of a city charter from the provincial government. A half holiday has been declared and all places of business will be closed after the noon hour. A good program of attractions is being arranged, consisting of baseball matches, school children's parade, etc., etc. The Edmonton brass band has been engaged for the occasion. The Lieutenant Governor, Cabinet Ministers and several members of the Legislature will be the guests of the city and will be tendered a banquet at the Diarrid hotel in the evening. A dance will also be held in Angus Opera house in the evening under the auspices of the baseball club. Large crowds are expected from outside points and the city will be attractively decorated for the occasion. A pleasant time is assured all who visit Wetaskiwin on Tuesday next.

—The new C.N.R. time table came into effect yesterday. The through passenger leaves Edmonton for Winnipeg and Port Arthur at 7:15 p.m.

—A public meeting is to be held in the council chamber at four o'clock this afternoon to discuss the high level bridge project.

—The blank sidewalk on the west side of Howard as far north as Isabella has been removed to make way for the new concrete walk.

—Owing to the bad roads coal was a scarce article last week. The dry weather has solved the transportation difficulties, and the supply will probably be ample in a few days.

—Intending exhibitors will confer a favor on the management of the Provincial exhibition by sending their names to the Secretary-Treasurer and price lists will be mailed to them.

—A special meeting of the Northern Alberta Medical Association is called for this evening in the council chamber at 8:30. The purpose of the meeting is to consider plans for an isolation hospital. A full attendance is requested of all medical men of the city.

—The fire brigade had a call to Howard street Friday, where a blazing hay stack in the rear of the Edmonton Printing Co., kept them busy for a few minutes.

—Wm. Henderson, a graduate of Toronto University, and brother of T. B. R. Henderson, of the Department of Agriculture arrived in the city Friday. He will leave this evening for Lacombe, where he will be stationed as Presbyterian missionary during the summer.

—The Government survey party are reported to have completed an alternative trial line from Cooking Lake to Strathcona for the G.T.P. Nothing is obtainable locally though rumors are current in Strathcona that a feasible route has been obtained.

—A. E. Patterson, of White Whale Lake, was in town on Saturday. A large number of settlers are going into the White Whale district this season owing to the prospects of early railway facilities. Mr. McCrimmon is rushing grading work on a section for the C. N. R. twelve miles in length eastward from the lake. The line runs along the north shore of the lake at a distance of from half a mile to a mile. Survey parties are now working westward from the lake.

—Calgary Herald: The Calgary Milling Company request the Herald to deny the report that they are commencing to build to-day. Owing to existing conditions in the building trades they have decided to postpone the construction of their thousand barrel mill, or alter their plans entirely. The original intention was to build in brick, but if the strike continues it will be necessary to build in some other material, if at all this season.

—A Medicine Hat despatch says: J. D. McGregor, of the Grand Forks Cattle Company, Medicine Hat, is said to have secured the contract for supplying with beef the construction gangs working on the G.T.P. between Winnipeg and the coast. This will mean something to the ranches of Medicine Hat, as although the Grand Forks Co. runs a very big bunch of cattle yet it would not have nearly enough stock to carry out such a contract as it rumored they have secured. Heavy buying will have to be done in this district.

—The Standard, Forest, Ont.: Dr. and Mrs. W. H. Pickering left Monday for Edmonton, where they expect to reside for some time, in hopes of benefiting Mrs. Pickering's health. Dr. Pickering has practised veterinary in Forest for fifteen years, and besides being successful in business he has created a warm feeling of friendship amongst the residents of Forest and the surrounding townships. Both Mrs. Pickering and the doctor have been among our most prominent and influential citizens socially. They were also deeply interested in the work in connection with the Methodist church, and their departure from Forest is deeply

regretted. Still all are in hopes that the change will be beneficial to Mrs. Pickering's health. The doctor will go into partnership at Edmonton with his brother, Dr. J. H. Pickering, veterinarian.

—Strathcona Plasterer: To a Plasterer reporter Supt. Jamieson stated that the C. P. R. officers would ask for an appropriation of \$50,000 at once for improvements to be made this season. The yards should be extended and a round house would be built with twelve stalls. New coal sheds would be built in the south end. Regarding a new station Supt. Jamieson said that nothing would be done this summer but that it would be in the estimates for next year. Regarding the plans had been submitted to the railway commission for approval; he took it that they were simply for a railway bridge without traffic floor. It is understood that when the bridge is built and trains run over to Strathcona all passenger and freight locomotives will be run back to Strathcona during their hours off duty. This will give Strathcona the full benefit of the pay rolls created by terminals here.

—The coroner's jury investigating the Twin Butte accident by which a C. P. R. fireman named Corbett was killed near Revelstoke, last Tuesday when the following verdicts were rendered according to a report of the Mail-Herald: The coroner reviewed the evidence about 11 p.m. and the jury retired. After being away over two hours they returned with a verdict that Corbett came by his death by being crushed between engine 1011 and the tender, through the collapse of the bridge at Twin Butte, and that the accident was caused by gross negligence on the part of the employees of the Locomotive and Machine Company of Montreal, in not having the bridge securely braced, also that the C. P. R. were guilty of negligence in not having a bridge inspector in charge of the work. The coroner said he could not accept that verdict. The parties held responsible must be specifically named. The jury again returned for an hour when they appeared with an amended verdict. That the collapse of the bridge was caused by negligence on the part of F. E. Buckham, foreman, and H. Flett, employee of the Locomotive and Machine company of Montreal, through not having the fallen span securely braced. We also find that C. E. Cartwright, division engineer of the Canadian Pacific Railway company (Pacific division) is guilty of negligence in not having the work at the bridge under the supervision of a competent inspector. The coroner, "That is equivalent to a verdict of death by misadventure."

ANOTHER SUBURBAN ADDITION

Crafts & Lee have purchased the Bowrick property, to the north-east of the city limits, and propose dividing it into lots and acreage. The property is what is called a long quarter and is situated a quarter of a mile from the new city park and three-quarters of a mile from the north-east corner of the city limits. It is a nice high park-like piece of territory and is considered a first-class suburban property. It is the intention to sub-divide in lots 50x150 and in five acre blocks.
